

NOTICE OF CONSTRUCTION

Asphalt Roadway Paving and Resurfacing

Please be advised that the Town of Whitchurch-Stouffville will be working in your neighbourhood to renew existing asphalt roads. The work will generally include removal of the existing asphalt surface, reshaping the gravel base, placement of new asphalt, and driveway and boulevard restoration as necessary on the roads listed below:

2019 Asphalt Roadway Paving and Resurfacing		
Road	From	To
Bethesda Road	Kennedy Road	McCowan Road
Vandorf Sideroad	Woodbine Avenue	Kennedy Road
St. John's Sideroad	Warden Avenue	Kennedy Road
Raeview Drive	Hilltop Trail	West Limit
Service Road	Palmwood Gate	East Limit
Aintree Drive	10 th Line	Cam Fella Boulevard
Cam Fella Boulevard	Aintree Drive	North Cul-De-Sac Limit
Blair Road	Stouffer Street	Dorman Drive
Thicketwood Boulevard	Lori Avenue	Booth Drive

Work is anticipated to begin on the week of **August 26, 2019** with project completion by **November 15, 2019**. Timing of individual roads and activities within the project will vary depending on weather conditions, contractor productivity, and equipment availabilities.

Please visit www.townofws.ca/pavingproject for more information on scheduling, progress for your road, and other frequently asked questions.

Should you have any questions or concerns, please contact:

Patrick Heron, C.E.T., PMP
Senior Project Manager
Town of Whitchurch-Stouffville

Common Questions and Concerns

Road and Driveway Access

During reconstruction roads will remain open to traffic but may require periods of detour or limited access. For your safety, please obey the signs and flag-persons. Vehicle access to driveways will be maintained as much as possible, however limited access will occur when work is being conducted in the immediate area. The contractor will notify you directly if driveway access will be obstructed for an extended period.

Improvements on Town Land

Some residents may have installed fences, irrigation systems, landscaping or other physical features in front of their home that are within the Town property limits. These items may conflict with construction activities. Prior to construction, a visual inspection will be conducted by Town Staff or a Town Representative to determine potential conflicts. In such cases, residents will be advised to remove these items prior to the beginning of construction to avoid damage. The Town is unable to re-instate, repair, or replace any physical features installed within Town property.

Construction Work Hours

Construction activity will conform with the Town's noise by-law that permits work between the hours of 7:00 a.m. to 7:00 p.m., Monday to Saturday. Work may be permitted after hours or on Sundays/holidays only on an emergency basis.

Garbage, Recycling and Composting Collection

Garbage, recycling and composting collection schedules will not change during the construction period. Please follow your normal routine and place materials as close to the usual location as possible, by 7:00 a.m.

If necessary, the contractor will move the waste materials to an appropriate location for pick-up by the waste contractor. **Please label all of your bins with your street address to ensure return.**

Driveways

Driveways impacted by road construction will be repaired or replaced to the extent required to restore the driveway to its existing condition. Replacement of existing driveways within private property and outside of the construction limits is at the discretion of the property owner. The Town is not a party to any private agreement entered into by a property owner for the replacement of asphalt driveways and does not specifically endorse or oppose such agreements with Town contractors or subcontractors. Property owners may seek the services of any qualified, guaranteed, and reputable contractor to complete driveway asphalt paving if desired.
