As required by Ontario Regulation 397/11 - Energy Conservation and Demand Management Plans, this Energy Consumption and Greenhouse Gas Emission Summary has been prepared for the municipal operations at the Town of Whitchurch-Stouffville. The data included in this table represents operations during the 2016 calender year. Data related to operations in the 2017 calender year will be made available prior to July 2019.

This table summarizes the operations that consume energy within the municipality (those with heated/cooled building, not including street lights and similar souces), their energy consumption, energy intensity (energy unit/area) and greenhouse gas emissions generated from the use of energy.

If you have questions related to the requirements of Ontario Regulation 391/11 or the data presented in the table below, please contact:
